Contents

1 Abstracts of papers presented at the Workshop on Molecular Genetics of the Mouse II, August 11–16, 1980, at the Sandbjerg Slot, Sønderborg, Denmark

41 Andersson, H. C., Kihlman, B. A. and Palitti, F.: Production of sister chromatid exchanges by X-rays under aerobic and anaerobic conditions

67 Annerén, G. and Gustavson, K.-H.: Trisomy 22 syndrome in a 26-year-old female—A follow-up examination

148 Announcement

29 Árnason, Ú.: Localization of nucleolar organizing regions in pinniped karyotypes

143 Bjerketvedt, D.: Bridge formation in meiotic anaphases in Norwegian populations of *Paris quadrifolia* L.

61 Carlenius, Ch., Ryttman, H., and Jansson, H. R-, G- and C-banded chromosomes in the Domestic Fowl (*Gallus domesticus*)

123 Habib, Z.: Haemoglobin El Faiyum—Possibly an Egyptian haemoglobin D

21 Hansson, K. and Hartley-Asp, B.: Potentiation by hydroxyurea in G2-prophase of thiotepa- and bleomycin-induced chromosomal aberrations in Chinese hamster cells

203 Heijbel, J. and Jagell, S.: Spastic paraplegia, glaucoma and mental retardation—in three siblings. A new genetic syndrome

179 Högstedt, B., Gullberg, B., Mark-Vendel, E., Mitelman, F. and Skerfving, S.: Micronuclei and chromosome aberrations in bone marrow cells and lymphocytes of humans exposed mainly to petroleum vapors

215 Jensen, J.: Effect of temperature on genetic recombination in barley

245 Juneja, R. K., van de Weghe, A. and Gahne, B.: A new genetically determined plasma protein polymorphism in the laboratory rabbit

249 Juneja, R. K., Lundin, L. G. and Gahne, B.: Genetic polymorphism of an α_1-protease inhibitor in mink plasma

235 King, W. A.: Meiotic behaviour of a rcp (13q−;14q+) translocation in heterozygous pigs

219 King, W. A., Linares, T. and Gustavsson, I.: Cytogenetics of preimplantation embryos sired by bulls heterozygous for the 1/29 translocation

281 Kubiak, R.: Demonstration of G-bands after BrdU incorporation

149 Kupila-Ahvenniemi, S. and Hohtola, A.: Nuclear membranes and inclusions in overwintering sporogenous cells of Scotch pine

135 Lambertsson, A. and Fekete É: A temperature sensitive suppressor mutation affecting the synthesis of imaginal disc proteins of *Drosophila melanogaster*

45 Lamm, R.: Giemsa C-banding and silver-staining for cytological studies in *Pisum*

241 Lumme, J.: Localization of the genetic unit controlling the photoperiodic adult diapause in *Drosophila littoralis*

285 Lumme, J. and Lankinen, P.: Close to equal crossing-over frequencies in males and females in *Drosophila littoralis*

277 Mäkinen, A., Lohi, O. and Juvonen, M.: Supernumerary chromosome in the chromosomally polymorphic Blue Fox, *Alopex lagopus*

269 Mäki-Paakkanen, J., Sorsa, M. and Vainio, H.: Chromosome aberrations and sister chromatid exchanges in lead-exposed workers

129 Nielsen, J., Krag-Olsen, B., Dirdal, M., Holm, V., Haahr, J., Rasmussen, N. H., Videbech, P. and Yanagisawa, S.: Chromosome examination of children, in two Danish counties, born during the period 1967–1978

93 Portin, P.: Temperature-sensitivity of the pleiotropic effects of three lethal Abruptex mutations at the *Notch* locus of *Drosophila melanogaster*

105 Rasmuson, M. and Hed, H.: A search for assortative mating and segregation abnormalities among mother-child-father triplets from paternity cases

53 Rønne, M., Vang Nielsen, K. and Andersen, O.: Qualitative and quantitative analysis of chromosome banding induced in vitro
99 Ryman, N., Hansson, A., Hirschfeld, J. and Swan, T.: Probability of paternity exclusions in different mother-child genotype combinations
161 Ryttman, H. and Tegelström, H.: Low degree of isozyme variation within and between Herring Gull (*Larus argentatus*), Lesser Black-backed Gull (*Larus fuscus*) and their British and Swedish subspecies
165 Ryttman, H. and Tegelström, H.: G-banded karyotypes of three Galliformes species, Domestic Fowl (*Gallus domesticus*), Quail (*Coturnix coturnix japonica*), and Turkey (*Meleagris gallopavo*)
83 Saleh, MD. N.: Effect of oxygen on genetic damage in barley seeds induced by γ-radiation
153 Savontaus, M.-L.: Cytology of aberrations induced by X-rays in oocytes of *Drosophila melanogaster:* II. Early meiotic stages
77 Schröder, J., Sutinen, M.-L. and Suomalainen H. A.: Chromosome segregation in lymphocyte hybrids
73 Segerbäck, D.: Estimation of genetic risks of alkylating agents. V. Methylation of DNA in the mouse by DDVP (2,2-dichlorovinyl dimethyl phosphate)
171 Söderström, K.-O.: Nucleolar fragmentation in the rat pachytene spermatocytes and the Sertoli cells caused by α-amanitin
253 Tallberg, A.: Protein and lysine content in high-lysine double-recessives of barley. I. Combinations between mutant 1508 and a Hiproly back-cross
261 Tallberg, A.: Protein and lysine content in high-lysine double-recessives of barley. II. Combinations between mutant 7 and a Hiproly back-cross
225 Tegelström, H. and Ryttman, H.: Chromosomes in birds (Aves): evolutionary implications of macro- and microchromosome numbers and lengths
189 Tegelström, H. and Ryttman, H.: Sex differences and androgenic regulation of esterases in the house mouse
209 Thust, R. and Rønne, M.: Structural modifications induced in Chinese hamster V79–E chromosomes by prefixation treatment in vitro with the AT-specific agents netropsin, distamycin A, and Hoechst 33258
35 Varvio-Aho, S.-L.: The effects of ecological differences on the amount of enzyme gene variation in Finnish water-strider (*Gerris*) species
139 Varvio-Aho, S.-L.: On the causes of seasonal genetic changes in *Gerris lacustris*
113 Vuorinen, J., Himberg, M. K.-J. and Lankinen, P.: Genetic differentiation in *Coregonus albula* (L.) (Salmonidae) populations in Finland

Contents

295 Alanen, M.: An integrated description of polytene chromosome structure
25 Andersen, O. and Rønne, M.: Effects of parafluorophenylalanine on chromosome structure in human lymphoid cells and Chinese hamster V79-E cells
141 Andersson, H. C.: Induction of sister chromatid exchanges by streptonigrin, an antibiotic and antineoplastic agent
69 Andersson, L., Ryman, N., Rosenberg, R. and Ståhl, G.: Genetic variability in Atlantic herring (*Clupea harengus harengus*): description of isozyme loci and population data
63 Annerén, G. and Gustavson, K.-H.: A fragile secondary constriction on chromosome 2 in five patients with different clinical features
269 Árnason, Ú.: Localization of NORs in cetacean karyotypes
277 Árnason, Ú.: Banding studies on the gray and sperm whale karyotypes
337 Axelsson, R. and Wahlström, J.: Mental disorder and inversion on chromosome 9
333 Eklund, T.: The effect of pre-irradiation culture conditions on the yield of X-ray-induced respiratory-deficient mutants in haploid *Saccharomyces cerevisiae*
169 Felding, I. and Kristoffersson, U.: A child with double trisomy: 48,XYY,+18
155 Fiskesjö, G.: Benzo(a)pyrene and N-methyl-N-nitro-N-nitrosoguanidine in the *Allium* test
43 Giese, H., Helms Jørgensen, J., Jensen, H. P. and Jensen, J.: Linkage relationships of the powdery mildew resistance genes on barley chromosome 5
51 Giese, H.: Powdery mildew resistance genes in the *Ml-a* and *Ml-k* regions in barley chromosome 5
149 Habib, Z.: An Egyptian β-thalassaemia heterozygote with normal haemoglobins A_2 and F: A problem in population screening
323 Habib, Z.: Homozygous β thalassaemia in Egypt
331 Habib, Z.: Haematological criteria in haemoglobinopathy-free adult Egyptians
259 Halkka, L.: Ultrastructural changes and kinetic relationships of the secondary nucleolus and nuclear bodies in previtellogenic oocytes of the dragonfly *Cordulia aenea*
213 Hansen, O.: Are the genes of universal grammar more than structural?
163 Herva, R.: Inv(7) as a recurrent aberration in human lymphocyte cultures
165 Högstedt, B. and Mitelman, F.: The interrelations of micronuclei, chromosomal instability, and mutational activity in acute non-lymphocytic leukemia — A hypothesis
1 Iwasa, S. and Ellerström, S.: Meiosis disturbances, aneuploidy and seed fertility in *Raphanobrassica*
37 Jarrell, G. H. and Árnason, Ú.: Banded karyotypes of a belukha whale, *Delphinapterus leucas*
225 Juneja, R. K., Reetz, I., Christensen, K., Gahne, B. and Andresen, E.: Two-dimensional gel electrophoresis of dog plasma proteins: Genetic polymorphism of an α_1-protease inhibitor and another postalbumin
283 Karlsson, J. L.: Genetic basis of intellectual variation in Iceland
239 King, W. A., Gustavsson, I., Popescu, C. P. and Linares, T.: Gametic products transmitted by rcp(13q−;14q+) translocation heterozygous pigs, and resulting embryonic loss
15 Knuutila, S., Siimes, M. and Vuopio, P.: Chromosome pulverization in blood diseases
173 Lundgren, L., Norelius, G. and Stenhagen, G.: Selection of biochemical characters in the breeding for pest and disease resistance: A method based on

analogy analysis of chromatographic separation patterns for emitted plant substances
253 Lundqvist, A., Østerbye, U. and Larsen, K.: The backcross analysis of complex gametophytic complementary *S* gene systems in diploid angiosperms
181 Lüning, K. G.: Genetics of inbred *Drosophila melanogaster*. I. Induction of marker genes and preliminary recombination tests
189 Lüning, K. G.: Genetics of inbred *Drosophila melanogaster*. II. Primary non-disjunction and chromosome loss
201 Lüning, K. G.: Genetics of inbred *Drosophila melanogaster*. III. Secondary non-disjunction
235 Mark-Vendel, E., Högstedt, B., Skerfving, S. and Mitelman, F.: Location of chromosome aberrations in bone marrow cells of individuals exposed mainly to petroleum vapors
79 Mitelman, F. and Levan, G.: Clustering of aberrations to specific chromosomes in human neoplasms. IV. A survey of 1871 cases
247 Portin, P.: The antimorphic mode of action of lethal Abruptex alleles of the Notch locus in *Drosophila melanogaster*
11 Shabtai, F. and Halbrecht, I: Interpretation of a marker chromosome 17p in multiple myeloma
289 Simonsen, V. and Christiansen, F. B.: Genetics of *Zoarces* populations. XI. Inheritance of electrophoretic variants of the enzyme adenosine deaminase
31 Suomalainen, E., Lokki, J. and Saura, A.: Genetic polymorphism and evolution in parthenogenetic animals. X. *Solenobia* species (Lepidoptera: Psychidae)
219 Viinikka, Y. and Nokkala, S.: Interchromosomal connections in meiosis of *Secale cereale*
